REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy — both industrial and recreational — is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area — 4,350,000 acres — is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.
2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.
3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.

PROGRAM OF THE WHITE MOUNTAINS REGION ASSOCIATION 1964

The White Mountains Region Association this year has published and distributed 136,000 promotional folders and cooperated with the five other Region Associations in publishing 400,000 copies of the New Hampshire Accommodations Booklet.

We received a total of 7,500 individual inquiries about the Region which were answered with a package of folders and with personal letters. Because we are closely associated with the State of New Hampshire promotional effort, we receive in our office inquiries which are generated by the State. The Region Association's address is listed in one and one-half million individual pieces of literature published by the State.

In addition to maintaining an active and effective mailing office, the Association has encouraged and promoted many important developmental projects for the region. Such projects include Northern Ventures, a venture capital corporation to assist people who have ideas for industry; Temple Monorail System at Twin Mountain; the Kilkenny project in Lancaster; Mt. Agassiz Development in Bethlehem and Big Bear Ski area at Bartlett.

Through our Industrial Council we have changed the emphasis of industrial development of the State of New Hampshire so that it includes the northern three counties and also encourage a "do it yourself" attitude with industrial development groups.

Last year we assisted in promoting an appropriation of $65,000 for the construction of the Whitefield Regional Airport and went on record opposing the Livermore Falls Dam in the Pemigewasset Valley.

Presently we are planning to establish an active Historical Sites Committee who will encourage the

development of major historical sites in the region, an asset which we have which has not been developed to its full potential.

The work of the Association is continually hampered by a lack of adequate funds. In order to do the work necessary to raise our economy, the full support of all towns in the region is needed.

Executive Secretary
